

2006 China Robot Expo

October 11~13, 2006 • Beijing International Convention Center, China

Introduction

China Robot Expo, is the most professional event in Chinese robotic industry. With the rapid development of Chinese robotic industry, it's estimated that the market capacity will surpass 9.31 billion RMB in the year 2010. This large capability has attracted companies from Japan, Korea, Sweden, Germany, Italy, etc. As the organizer of the 2006 China Robot Expo, we cordially invite you to participate in the all-round cooperative event and have direct talks with Chinese customers through this platform.

Feature

- The unique professional robot expo in China
- Latest presence of technology and products
- Huge market capacity and potential
- Attendance of industry professionals and experts

The scope of the expo includes but is not limited to:

Manufacture Robot

Robots for arc welding, spot welding, assembling, handing, painting, cutting, sealing, plastic molding, micro-robots and micro-machine system for manufacturing, etc

Automatic Manufacture Technology and Equipment

Servo system, electric machinery, sensor, controller, MEMS equipment, IC equipment, control software, etc

Related Equipment and Device / Element Equipment

Electronic control equipment, Hydraulic machinery, Measuring instrument, Computer for control, Motor, Actuator, Sensor, Transport mechanism, Jig, Gear/screw, Cable, Connector, Reducer, End effect, Robot design, recognition technology, Component, CAD, CAM, CAE, Other FA equipment

Robot Simulation and Vision System

Simulation system, simulation software, robot instruction system, various digital production system-related equipment, etc. Image processing equipment, illuminator, light source, CCD camera, micro-camera, lens, image recognition equipment, measurement and analysis equipment, image processing software, sensor, machine vision (monitoring system), etc

Educational Robot, Service Robot & Aerial Robotics

Approved by

- Ministry of Science and Technology P. R. C.

Sponsored by

- China International Enterprises Co-operative Corporation
- Institute of Automation, Chinese Academy of Sciences

Co-sponsored by

- Subject of Robotic Technology, The National High-Technology Research & Development Program of China (863 Program)
- Chinese Association of Artificial Intelligence

Organized by

- China Enterprises International Exhibition & Advertising Co., Ltd. (CEIEAC)

Oversea Organizer

- Interfairs Co., Ltd.
